redundant bells to be hung
for English-style full-circle bell-ringing.

Dumfries, Dumfries & Galloway, St John

The second project in Scotland incorporating bells from the former church of Quarriers Village is the installation of a ring of bells at St John's Episcopal Church, Dumfries. A ring of eight bells has been installed and first rung on Friday 8th November 2013. The back five bells are the back five of the former chime at the Mount Zion church, Quarriers Village, Scotland.

Dumfries, Dumfries & Galloway, St Bride's (Greyfriars)

It is planned to install the ring of eight bells from the redundant church of Bacup, St Saviour at Greyfriars. The bells were removed from Bacup during March 2019.

Haddington, Lothian, St Mary

The priory church has a fine ring of eight bells cast by John Warner & Sons of Cripplegate, London. The Trust was involved with their acquisition from Dunecht House, Grampian where they were hung as a chime.

St Andrews, Fife, St Salvator's Chapel

The ring of two bells at St Salvator's Chapel, St Andrews has been augmented to a ring of six. The Trust supplied three redundant bells and donated one of these to the project. Two bells came from the redundant church of St George's North, Greenock and one bell from Cradley Heath Methodist church.

Tulloch, Highland, The Ringing Centre

A ring of twelve bells has been installed at the Tulloch Ringing Centre in Scotland. The tenor weight is 7cwt and the back six have been formed from the former Gillett & Johnston chimes at Quarriers Village and St George's North, Greenock. Four bells came from Greenock and two from Quarriers Village.

Tulloch, Highland, The Last Ring

A light ring of eight bells with a tenor weight of 1-1-15 was installed during July 2015 in a purpose built tower. The two tenor bells came from the former chime at Christ Church, Prestatyn, the 3rd from St Ethelburga, St Leonards on Sea.
